You will not be able to execute your special attacks unless you are at level 4. To move up levels, you need to have the required amount of experience points. The character you choose and the types of moves you apply to knock out your opponent will determine how many experience points you will receive.

**CODY:** When Cody is strong enough, he can channel energy through his hands to create a **Tornado Sweep**. Using this technique, he can hit his enemies at a distance.

**HAGGAR:** With the speed of light, Haggar can quickly charge toward his enemy and apply a fatal wrestling move. By executing the **Running Clothesline**, he can catch most of his enemies off guard.

**GUY:** Guy is the quickest of the three. He can apply deadly combinations on unsuspecting enemies. By using his **Tornado Kick**, he can knock out his opponent with two swift kicks to the head.

## POWER-UP ITEMS CONT.

## BOSSSES OF METRO CITY

### Thrasher

Haggar and his friends must start their journey in the slums of Metro City. There, a Thrasher cool blond with shades will be waiting for them to put an end on their mission. Being at the bottom of the totem pole, Thrasher must do whatever it takes to prove his worthiness to the Mad Gear Gang.

### Katana

Riverside is ruled by Katana. If you want to go through, you'll have to defeat the sword-swinging samurai. He's quick with his sword, so be very careful. He has a twin brother who rules the factory. But it has been rumored that a third may exist.

## BOSSSES OF METRO CITY CONT.

### Abigail

Abigail is not your typical muscle-head. He's got brains and brawn. He's been exercising his mind by reading trivia. So if you want to get past Old Town, you'll have to answer his questions or he'll plant a big wet kiss on your cheek.

### Katana

This is another Katana brother that you'll encounter. He heads the factory where weapons are produced for the Mad Gear Gang. He thinks like his brother, so use the same tactics to defeat him.

## HELPFUL HINTS

- Wait until your strength meter is low before you pick up any food.
- Standing toe-to-toe with your enemy can prove fatal. Instead, be patient and wait until they leave themselves open, then attack!
- There's a certain amount of hits you can apply to an enemy before you knock them down. Find deadly combinations of hits for maximum damage.
- Be very cautious when using your special moves because they will leave you vulnerable for a second.
- Be careful when using your super moves. Each time you use them, they will deplete some of your energy.
